Give the impression of the seaside with this nautical set - all blue waters, white clouds and sandy beaches. Red is the common accent color to this set, and makes the blues pop!

#12 - OLD TYME EASTER

MAIN COLOURS

ACCENT COLOURS

This selection is great for when your looking for spring colors or a broad color base to work with, but you don't want everything to jump out off the page as much. Muting the tones of each color will give a historical or antique flavour to the design.
